

# Think & Feel?

Zoom helpful in reading patient/student

comfortable with technology

Training is important on technology

Telehealth is where the future is in healthcare

Communication overload

If clinical is not there, telehealth is difficult

Patients may not be honest

Can't hear, feel, touch in telehealth

Received minimal discussion of telehealth in nurse education

Team of wide network of nurses to consult

# Hear?

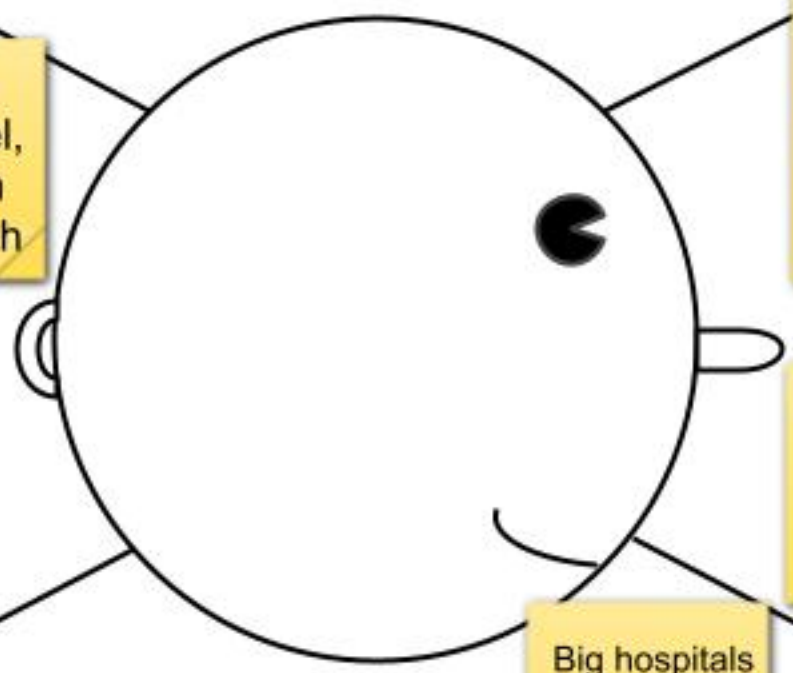

Telehealth different in other countries

App for covid may be helpful for tech savvy nurses

# See?

Skewing of information by CDC and WHO

Telehealth is secondary

# Say & Do?

Covid can be asymptomatic

Doesn't always communicate

Contact tracing may be used in telehealth through coursera

Big hospitals with town hall meeting on covid

Passionate about nursing care

Lunch & learn web-based training

# Pain

No telehealth education to train nurses to train

Too much information on covid and telehealth to weed through

Not knowing real vs fake with covid

# Gain

Updates by those in charge

Big hospitals are using tracking system with Covid
